Gives everything it is.

We can create like Father only when we accept what we truly are.

On Level # 1, the united Sonship creates like His Father.

Comes from the belief in abundance.

Understands that sharing requires no sacrifice.

Is Being. Being is what we share.

Part of the Mind of God

Unknown to the split-minded son while under influence of the ego.

The cause is a thought from the Christ-consciousness or God.

MAKE, MAKING AND IT'S RELATED TOOL - PROJECTION -

Note: Projection is the process used to make

How the split-minded Sonship made his provisional reality.(Level # 2)

Separation or exclusion.

Maintains separateness.

Makes to get rid of something it does not want

Makes all that is unreal. It is the dream world of provisional reality.

Goal or purpose is to give false witness for the separation as being real.

Results in inequality.

On level # 2, Our ability to create is reflected by an act of forgiveness.

Comes from a belief in limitation.

Believes sharing requires sacrifice.

Is Existence. Existence is what we think we are after the separation.

Not part of the Mind of God

Appears real to the split- minded in the dream world of provisional reality.

The cause is a thought from the egoic mind of the split-minded Sonship.

How projection works

Projection always starts from the original belief in separation, which results in the belief in limitation.

The split mind, under the thought system of the ego, generates tremendous amounts of fear, guilt or anger.

This fear, guilt or anger is determined to be not wanted and undesirable.

A thought is generated from the split-minded's mind to remove, or project, this thought out of its mind in order to get rid of it.

This thought is projected outside itself. This thought has already predetermined what it desires to "see" outside itself.

When the predetermined target is "found", this predetermined thought is reflected back to the sender.

The original sender's senses pick up or perceive the returning thought and confirm the existence of this thought outside itself as being real.

What you now perceive as outside yourself now seems real and, thus, reinforces the belief of the original thought.

This projection becomes part of your belief system and, thus, becomes part of the illusionary world that your mind has "made up" as real.
